

Gurram Mohith Vamsi

B.Tech Civil Engineering

ce23btech11022@iith.ac.in

+918919702275

Degree	University/Institute	Year	CGPA/Marks(%)
B.Tech Civil Engineering	IIT Hyderabad	2027	7.19
XII (tsbie)	Narayana junior college, hitex	2023	94.70%
X (ssc)	Narayana co school lb ,bairamalguda	2021	10.00

SCHOLASTIC ACHIEVEMENTS

- **JEE Advanced 2023** , Ranked in the top **7.8%** out of 1.8 lakh candidates
- **JEE Mains 2023** , Ranked in the top **3.3%** out of 11 lakh candidates
- **TS EAMCET 2023**, Secured a rank of **5058** out of 3 lakh candidates

POSITIONS OF RESPONSIBILITY

- **Alumni cell**, Campus tour Coordinator : Organized and guided campus tours for visiting alumni, ensuring smooth coordination and engagement during events.
- **Otaku club**, Design Coordinator : Led creative design initiatives for club events and activities, managing posters, and promotional materials.

SKILLS

- **Programming languages** : java , C /C++
- **Tools** : Solid Edge ,Latex ,Excel

RELEVANT COURSES

- **Programming courses**: Introduction to Programming.
- **Mathematics**: Calculus, Linear Algebra, Differential Equation, Probability, Statistics, Transform Techniques, Complex Variable.
- **Civil engineering**: Engineering Drawing, Digital fabrication, Engineering Mechanics, Mechanics of solids and structure, Thermodynamics, Structural Analysis, Fluid mechanics, Hydraulics engineering, Construction material, Construction management, Surveying, Geotechnical engineering, Environmental Systems engineering-1.
- **Hands-on Coursework**: Fabrication Laboratory-1, Chemistry Laboratory, Construction Material Laboratory, Structural Mechanics Laboratory, Geotechnical Engineering Laboratory.

PROJECTS

- **Petronas Twin Towers – 3D Modelling and Printing** :
 - Designed a detailed 3D model of the Petronas Twin Towers using **Solid Edge**, focusing on accurate structural geometry and scale.
 - Prepared and optimized the model for **3D printing**, successfully fabricating a physical miniature replica.
 - Strengthened skills in **CAD design, 3D modelling**, and hands-on prototyping.
- **Stress and Strain Study on Railway Tracks** :
 - Researched and compiled findings on how **mechanical stresses and strains affect railway track performance**.
 - Gathered and analyzed information from academic and industry sources to understand **load distribution, material behavior**, and **structural safety**.
 - Developed a summarized report demonstrating understanding of **structural mechanics principles** and real-world **railway engineering applications**.

EXTRACURRICULAR

- **Volunteered 120+ hours** as part of the **National Service Scheme (NSS)**, engaging in various community development activities.
- Participated in the **Clean India Drive**, promoting environmental awareness and cleanliness through hands-on involvement.
